

FAQ Master v1 for Customer Service AI Agent (RAG)

This document is a starter FAQ knowledge base designed for retrieval-augmented generation (RAG). Each answer is written so that an AI customer service agent can directly retrieve and respond accurately. Expand each section over time based on company-specific policies and services.

General Company FAQs

Q1. What services does your company provide?

Answer: We provide AI solutions, digital marketing, SEO, cybersecurity, business audits, website and mobile app development, software development, automation, cloud solutions, branding, consulting and related technology services.

Q2. Which countries do you serve?

Answer: Our services are designed for international clients across multiple countries through remote and hybrid delivery models.

Q3. Do you sign NDAs?

Answer: Yes, NDAs can be signed before discussing confidential business information.

Q4. Do you provide post-deployment support?

Answer: Yes. Support plans and SLAs are available depending on the selected package.

Q5. How do I start a project?

Answer: Contact our team, discuss requirements, receive a proposal, approve the quotation, and begin implementation.

AI Services

Q1. What AI solutions do you offer?

Answer: Custom AI agents, chatbots, workflow automation, document intelligence, RAG systems, voice AI, AI integrations and enterprise automation.

Q2. Can AI integrate with my CRM?

Answer: Yes. API-based integrations with popular CRMs and custom platforms are supported.

Q3. Do you support multilingual AI?

Answer: Yes. AI agents can communicate in multiple languages based on project requirements.

Q4. Can AI work 24/7?

Answer: Yes. Properly deployed AI agents can provide round-the-clock assistance.

Q5. Which LLMs do you support?

Answer: Support depends on project needs and may include OpenAI, Anthropic, Google, open-source models and private deployments.

Digital Marketing

Q1. Do you manage Google Ads?

Answer: Yes. Campaign planning, optimization and reporting are provided.

Q2. How long does SEO take?

Answer: SEO is a long-term strategy and results usually take several months depending on competition.

Q3. Do you provide reports?

Answer: Yes. Regular KPI-based performance reports are shared.

Q4. Can you manage social media?

Answer: Yes. Content planning, posting and campaign management are available.

Q5. Do you guarantee first-page rankings?

Answer: Ethical SEO practices are followed; rankings cannot be guaranteed.

Cyber Security

Q1. Do you perform penetration testing?

Answer: Yes, depending on engagement scope.

Q2. How do you protect client data?

Answer: Security best practices, access control and encryption are implemented where applicable.

Q3. Do you perform security audits?

Answer: Yes. Security assessments and audit reports are available.

Q4. Can you help after a security incident?

Answer: Yes. Incident response and recovery assistance can be provided.

Q5. Do you follow compliance standards?

Answer: Support for relevant security frameworks can be discussed during project planning.

Business Audit

Q1. What is a business audit?

Answer: A structured review of business performance, processes and improvement opportunities.

Q2. What are the deliverables?

Answer: Audit reports, recommendations, KPI analysis and improvement roadmap.

Q3. How long does an audit take?

Answer: Timeline depends on organization size and audit scope.

Q4. Do you provide quarterly audits?

Answer: Yes, recurring audit programs can be arranged.

Q5. Will I receive actionable recommendations?

Answer: Yes. The audit focuses on measurable business improvements.
